Help with paying your bills

We understand sometimes it can be difficult to pay for all your household bills.

If you're worried about paying your bills, or think you might need a little extra support, we are here to help – please let us know as soon as possible.

Please get in touch with us as soon as you can if you are worried about paying your bills – we can only help if you let us know.

WaterDirect

You may be able to arrange for your payments to be taken directly from your benefits under WaterDirect. This only applies if you are behind on payments with your water bill.

If you get income support, job seekers allowance, pension credits, or Income Related Employment and Support Allowance from the Department for Work and Pensions (DWP), you may be eligible. Contact the DWP for more details.

Social Tariffs

Our Social Tariff is aimed at customers struggling with paying their water bills. It offers discounts on water bills to low-income households that meet certain criteria. If your income is below average and you need help, please fill out our application form on our website and we'll check if you're eligible.

Extra help and support we provide

WaterSure scheme

WaterSure is a scheme designed to cap water bills for vulnerable customers who need to use a lot of water.

You may be eligible for the WaterSure scheme if you:

- receive Child Benefit for three or more children under 19 who live in your household; or
- someone in your household uses more water than average because of a medical condition

Payment plans

A payment plan can help you spread the cost of your bills, over flexible payment periods, such as weekly, fortnightly or monthly.

If you're behind on payments, the payment plan will cover the cost of what you owe and your water usage.

Breathing space

If you need a bit of time to get back on your feet, we may be able to pause your payments for a short while.

If you've had a change in personal circumstances that's had an unexpected impact on your income, you may be eligible.
